Cupid on a Raid.
BY JOSH BILLINGS.

It is real singular what a man-killer and woman-killer the god, Cupid is, for one of his shafts.

He is pictured out on paper about the size of a four-year old fat boy baby, with a pair of wings about as large as a boss butterfly's, and is armed with a bow and arrows, that might possibly answer to kill humblybees at four paces.

This little fellow has bagged more game with his wooden shooting irons than all the powder and all the shot that has ever been built can brag of.

He has in his quiver innumerable arrows, sum of them dipped in genuine love, and feathered with good sense, but most of them would seem too trifling to be at all dangerous if I hadn't, with my own eyes, noticed him at work with them, both at male and female game, both sitting and flying, and seen the many dead shots he has made.

I have known at sum pines for the last few seasons watch his maneuvers, where I have happened to be, and the following record is a faithful history of this little chap's bloody business.

Ben Sloon, aged 19 years, weight about 150 pounds, and a good eater, at work by the month for farmer Brown, hoeing corn, received his death wound from a garter belonging to Rachel Tucker, Brown's hired girl, as the said Tucker was learning her jump the rope down the garden.

Kate Freelove, youngest daughter of I. S. Freelove, Esq., who could play big on the piano, and had studied Latin one quarter, was shot thru and thru by a paper of Stuart's mixed candy's that Frank Feyer sent her.

John Davis got his nutron cooked by a spiculi that was dangling on Angelina's forehead.

Bill Wetherby a dry goods clerk, died suddenly by getting in range of one of Koxxy Matthew's sweetest smiles darted across the counter.

Sally Munson diseased without a struggle. Cause—Dick Fenton's No. 7 patent leather boots, and California solitaire.

Sam Benson, butcher, wounded with a hoop skirt, got better, then was struck plumb dead by a false calf in the bowery.

Lawrence Peters, aged 60, and for 30 years a consistent bachelor, lived only an hour, in great agony, after eating warm apple pies at Widow Stubbin's.

Frank Hunter, maimed for life, by a black balmoral with an orange stripe in it.

CHINESE IDOLATRY.—A letter written on board the United States steamer Wachusett, at Pootoo, an island at the mouth of the Yangtze river, says the island is considered holy ground by the Chinese, who visit it annually during the months of January and February, to the number of ten or fifteen thousand. They worship Buddha and the Western Heavens, and a large amount of money has been laid out on buildings for the idols and the numerous priests. The grounds are beautifully cultivated, and all the avenues of approach to the temples are lined with shade trees. The chief idol in the main temple is some thirty feet high, and at least ten in breadth; it is in a sitting posture, with limbs crossed something after the manner of the Turks. The idols are composed of plaster or something of that nature, and are all heavily gilded. One of the Brahmin priests who died recently had led his right arm up for thirty years and had let his finger nails grow until they had penetrated the flesh. Usually there are about 300 priests on the island, but at the time of the annual worship they number as high as 5,000. The letter adds:

Between the main group of temples and the beach there is a beautiful spring of water, clear as crystal and cold as ice. The call to the genia's well, and they believe if you drink of this water you will live a thousand years. Each one of the ship's crew, who visited the place, took an extra glass to make sure of a good thousand. We found in one of the temples the largest bell and drum we had ever seen; the drum is about twelve feet in diameter, and when it is struck it sounds like heavy thunder. The bell is struck by a battering ram slung on one side at the proper height. It takes two strong persons to do it justice, and we did our best to bring out the full tone, when it nearly deafened us all with its heavy, deep clang clang.

THE VIRGINIA AND MARYLAND SURVEY.—The commissioners appointed by the two legislatures, Virginia and Maryland respectively, met in Horntown, Va., on the 6th ult., and completed their preliminary arrangements for the survey and bounding the line dividing the two States on the Eastern Shore. The New-town Gazette says:

Dr. Field and Colonel Kellam on the part of Virginia, and Wm. J. Aydelotte, esq., on the part of Maryland, were constituted a sub-committee to superintend the survey of said line from the ocean to the Potomac river. On the 8th the sub-committee, with Engineer John De la Camp, of the United States topographical bureau at Washington, entered upon the duties assigned them, aided by from two to five day laborers as choppers, flag-carriers, instrument-bearers, etc., and completed their labors a few days ago.

From the river to the Chincoteague bay the line is perfectly straight, changing the relation of only four houses, two dwellings, one store and a mill; distance, 14.83-100 miles running N. 5° 15' E. From the west side of said bay to the ocean also a straight line is drawn, and runs N. 2° E., passing through the middle of Foby's Island, a distance of 7.23-100 miles, making the distance from river to ocean 22.06 miles. On the surf-banks, on one State to each public road passing from one State to the other, a stone monument will be erected with "Va." carved on the south, and "Md." on the north side.

POULTERER'S FRIEND.
A CERTAIN CURE FOR
GAPES AND OTHER DISEASES IN
CHICKENS AND TURKEYS.
A Certain Preventive of Chicken Cholera.
Will prevent disease in all kinds of fowl, and
promote an increase of fat. Read the following:
Jefferson, Frederick co., Md.,
July 24, 1867.

Messrs. Clotworthy & Co.:
Gentlemen: The wonderful cures which have been
made by your Poultryers' Friend cannot fail to
interest all who raise poultry. A gentleman of
this village has been experimenting on chickens
with the gapes. He tried your Poultryers' Friend,
according to the directions, and it had
the desired effect in removing the worm, effec-
tually relieving the chicken at once. Since
then I have had many calls for it, and it has
been used extensively with the same result. It
is of incalculable value to all who raise poultry.
Respectfully,
A. SPENCER.

to answer the purpose I sold it for. I therefore
invite my country friends to call and examine
my stock of COOKING and HEATING
STOVES before purchasing elsewhere, confident
that they will not go away displeased. I
would also enumerate amongst my stock a fine
lot of TIN WARE, of my own manufacture,
